The Primary **AIM** of this event is to provide an opportunity for Year 5 and 6 children to compete and collaborate with each other to create and design tactics related to a range of football activities. This will be achieved by having groups of 3 teams competing in groups around all the different game variations and training sessions.

DECISION MAKING / TACTICAL AWARENESS / PROBLEM SOLVING / TEAMWORK / FOLLOWING RULES

The primary **OBJECTIVES** of this event are stated below:

- ❖ For the pupils to play modified football games applying basic tactics of attacking and defending.
- ❖ For the pupils enjoy communicating, collaborating and competing with each other.
- ❖ To compare performance with previous ones and demonstrate improvement to achieve personal best.

Event Format:

There will be a circuit of football activities which will include 2 training activities in between 2 different modified football matches that will be delivered by sports leaders. The modified games will be:

- 1 v 1's / 2 v 2's / 3 v 3's (Training Activity)
- The Numbers Game
- Attack vs Defense (Training Activity)
- Back to Back goals

Depending on the number of schools, they will be split into groups of 3. They will rotate round all 4 different activities, competing and collaborating against both teams within their group. Following the completion of all the activities there may be time for playoff games against schools from other groups.

It is important to note that this event is a competition. However, it is important that children attending **DON'T** have a large amount of experience within grassroots football.
